VINIFICATION

Our 2024 Three Hills Cuvée Chardonnay reflects a dynamic evolution in the cellar, with each vineyard block and clone meticulously fermented separately, allowing the wine's character to fully develop before blending. This vintage exudes New World fruit with Old World sensibility, showcasing elegance, depth, and a thoughtful balance of French oak and concrete fermentation and aging. The result is a wine with bright acidity, structure, and layered complexity, striking a balance between richness and tension. Crafted from a philosophical, palate-driven approach, this limited-production Chardonnay is a testament to Lange's 40-year journey.

THE VINTAGE

"The growing season was, in a word, quintessential. A very balanced and even spring and summer— warm but not hot.

Some scattered showers during spring flowering led to variation on fruit set and within some clusters- which can be challenging for sampling but can also provide additional cluster complexity. Harvest and picking 2024 commenced on September 21st with picking still (and sparkling!) Rose, along with some Estate Chardonnay and Pinot Gris. It was book-ended on October 12th with the final pick of our Lucky River Pinot Noir "Pommard".

Most importantly, flavors were highly developed and packed with complexity- and the resultant wines showcase a very classically polished, Willamette Valley profile, albeit with some flashes of power. Exciting wines indeed! — Jesse Lange

TASTING NOTES

Fresh pears, honey, and sea breeze on the nose, with warm white florals and lemon on the palate. Subtle and very clean finish that unfurls evenly, buoyed by expertly balanced mineral-driven acidity.
